

Census Income

Midterm Exam Presentation

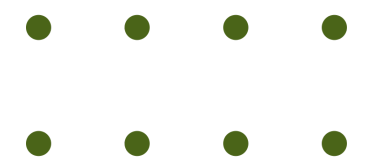

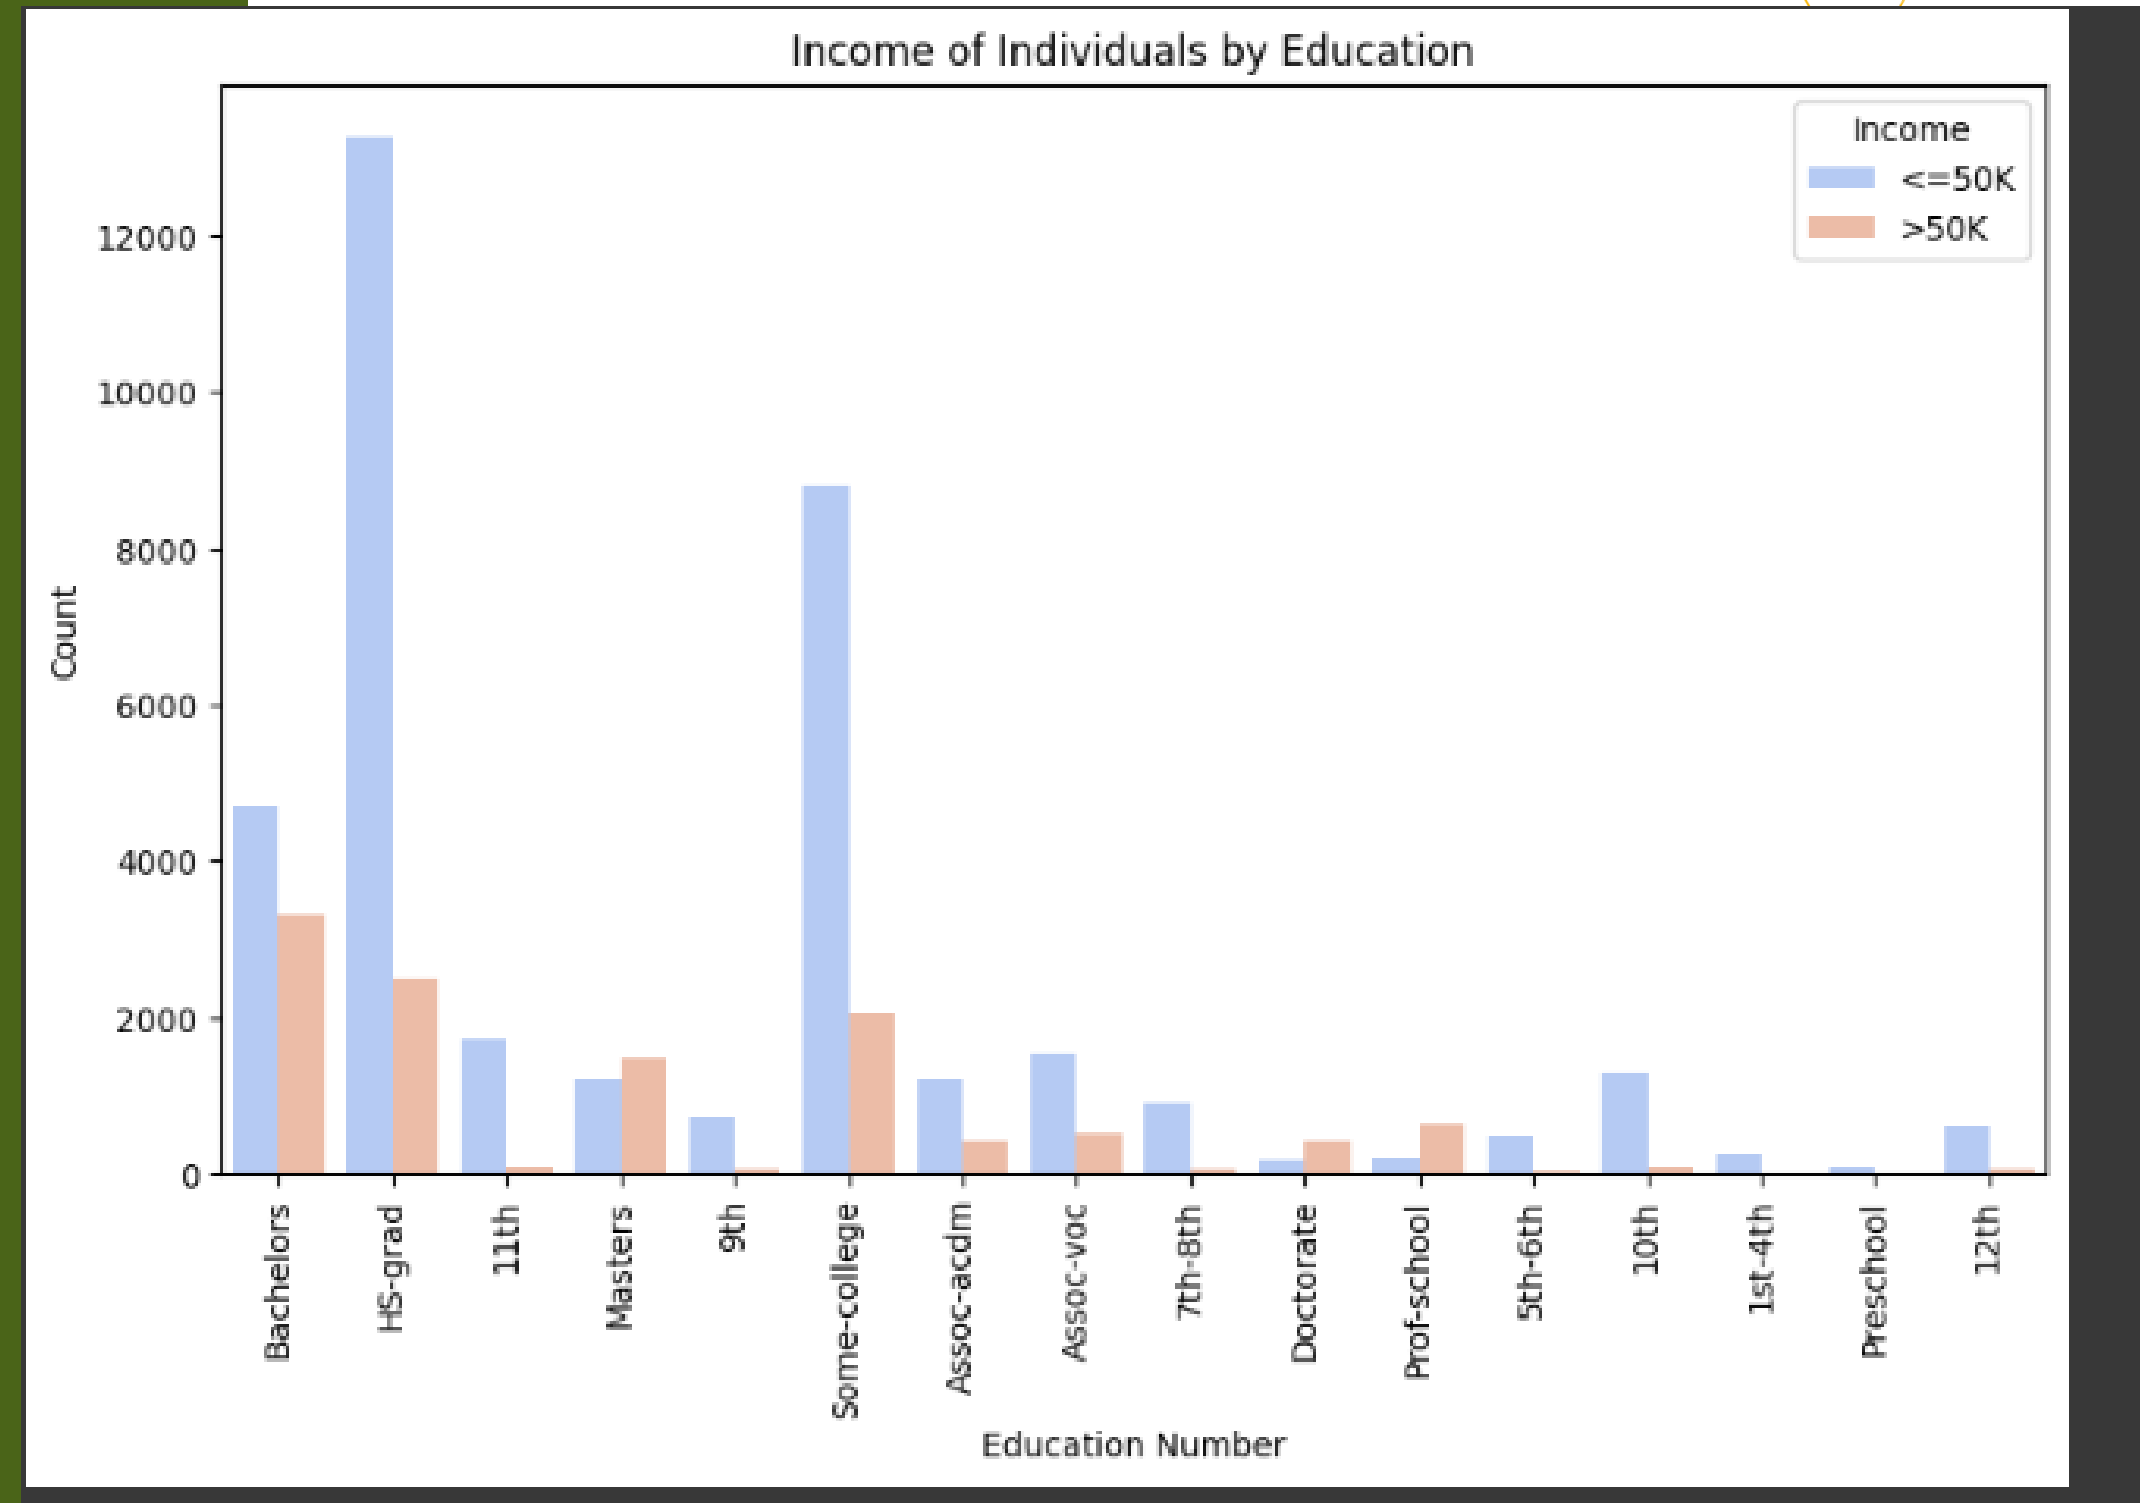

by John Padrigano

Income of Individuals

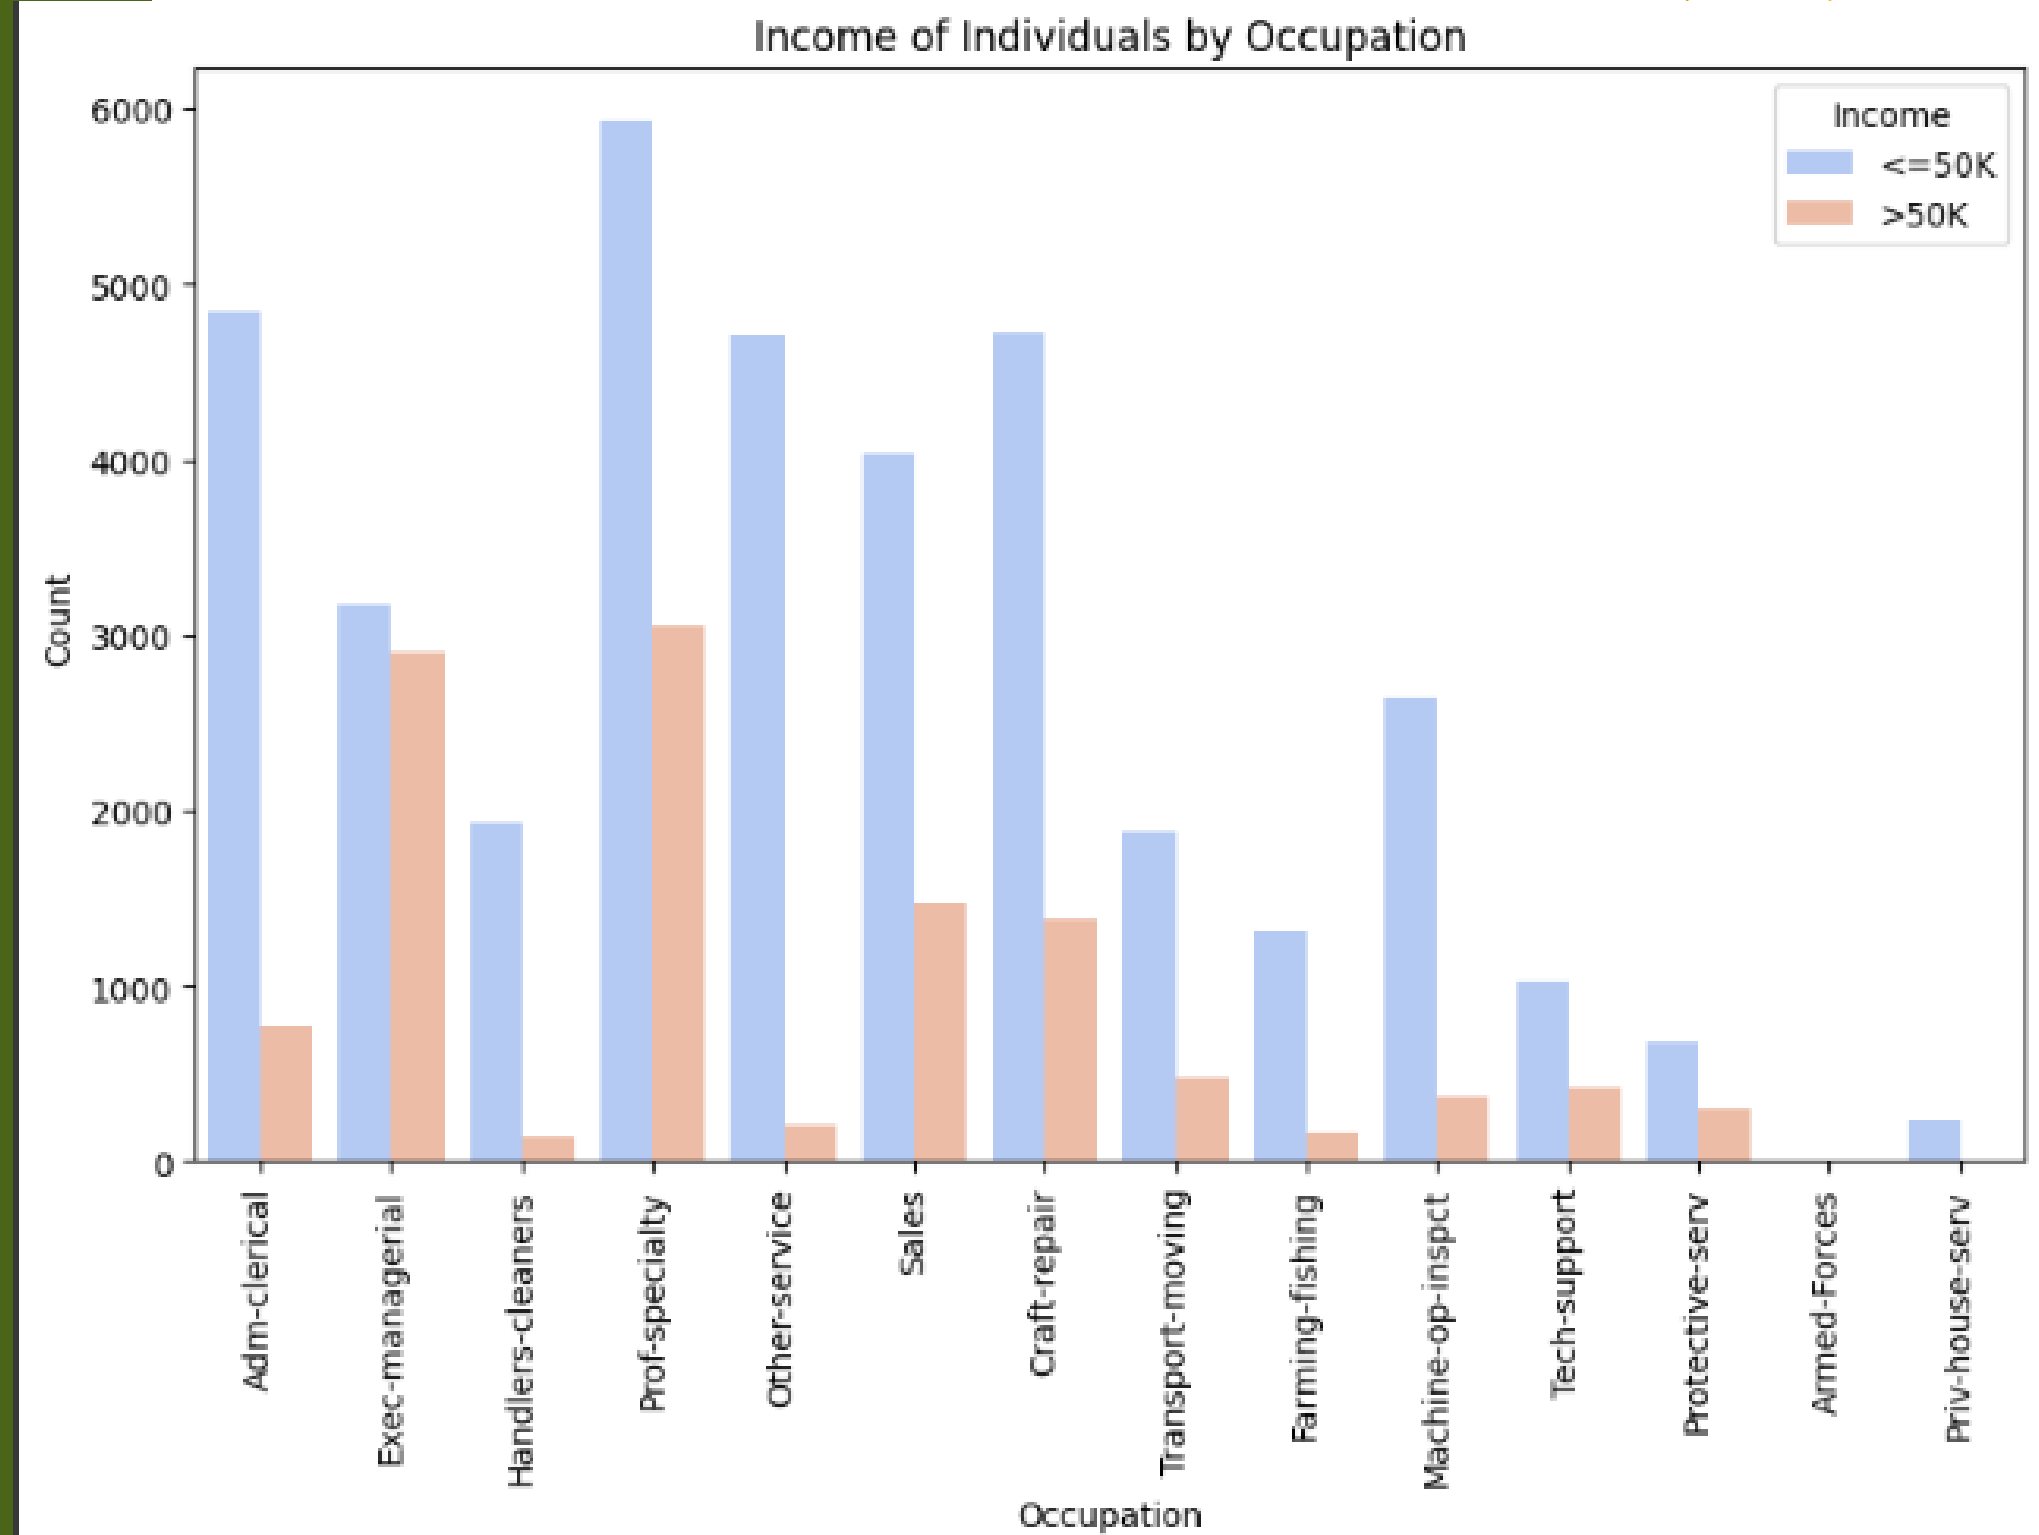

Higher education tend to have higher income while with lower education tend to have lower income

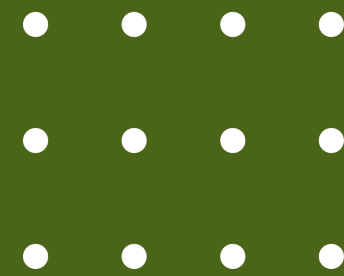

Income of Individuals

- Income of individuals
- Income of individuals
- Income of individuals
- Income of individuals

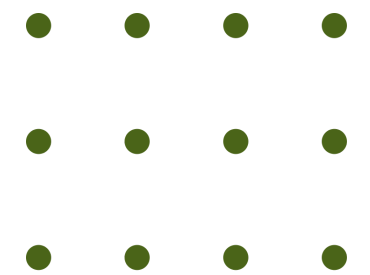

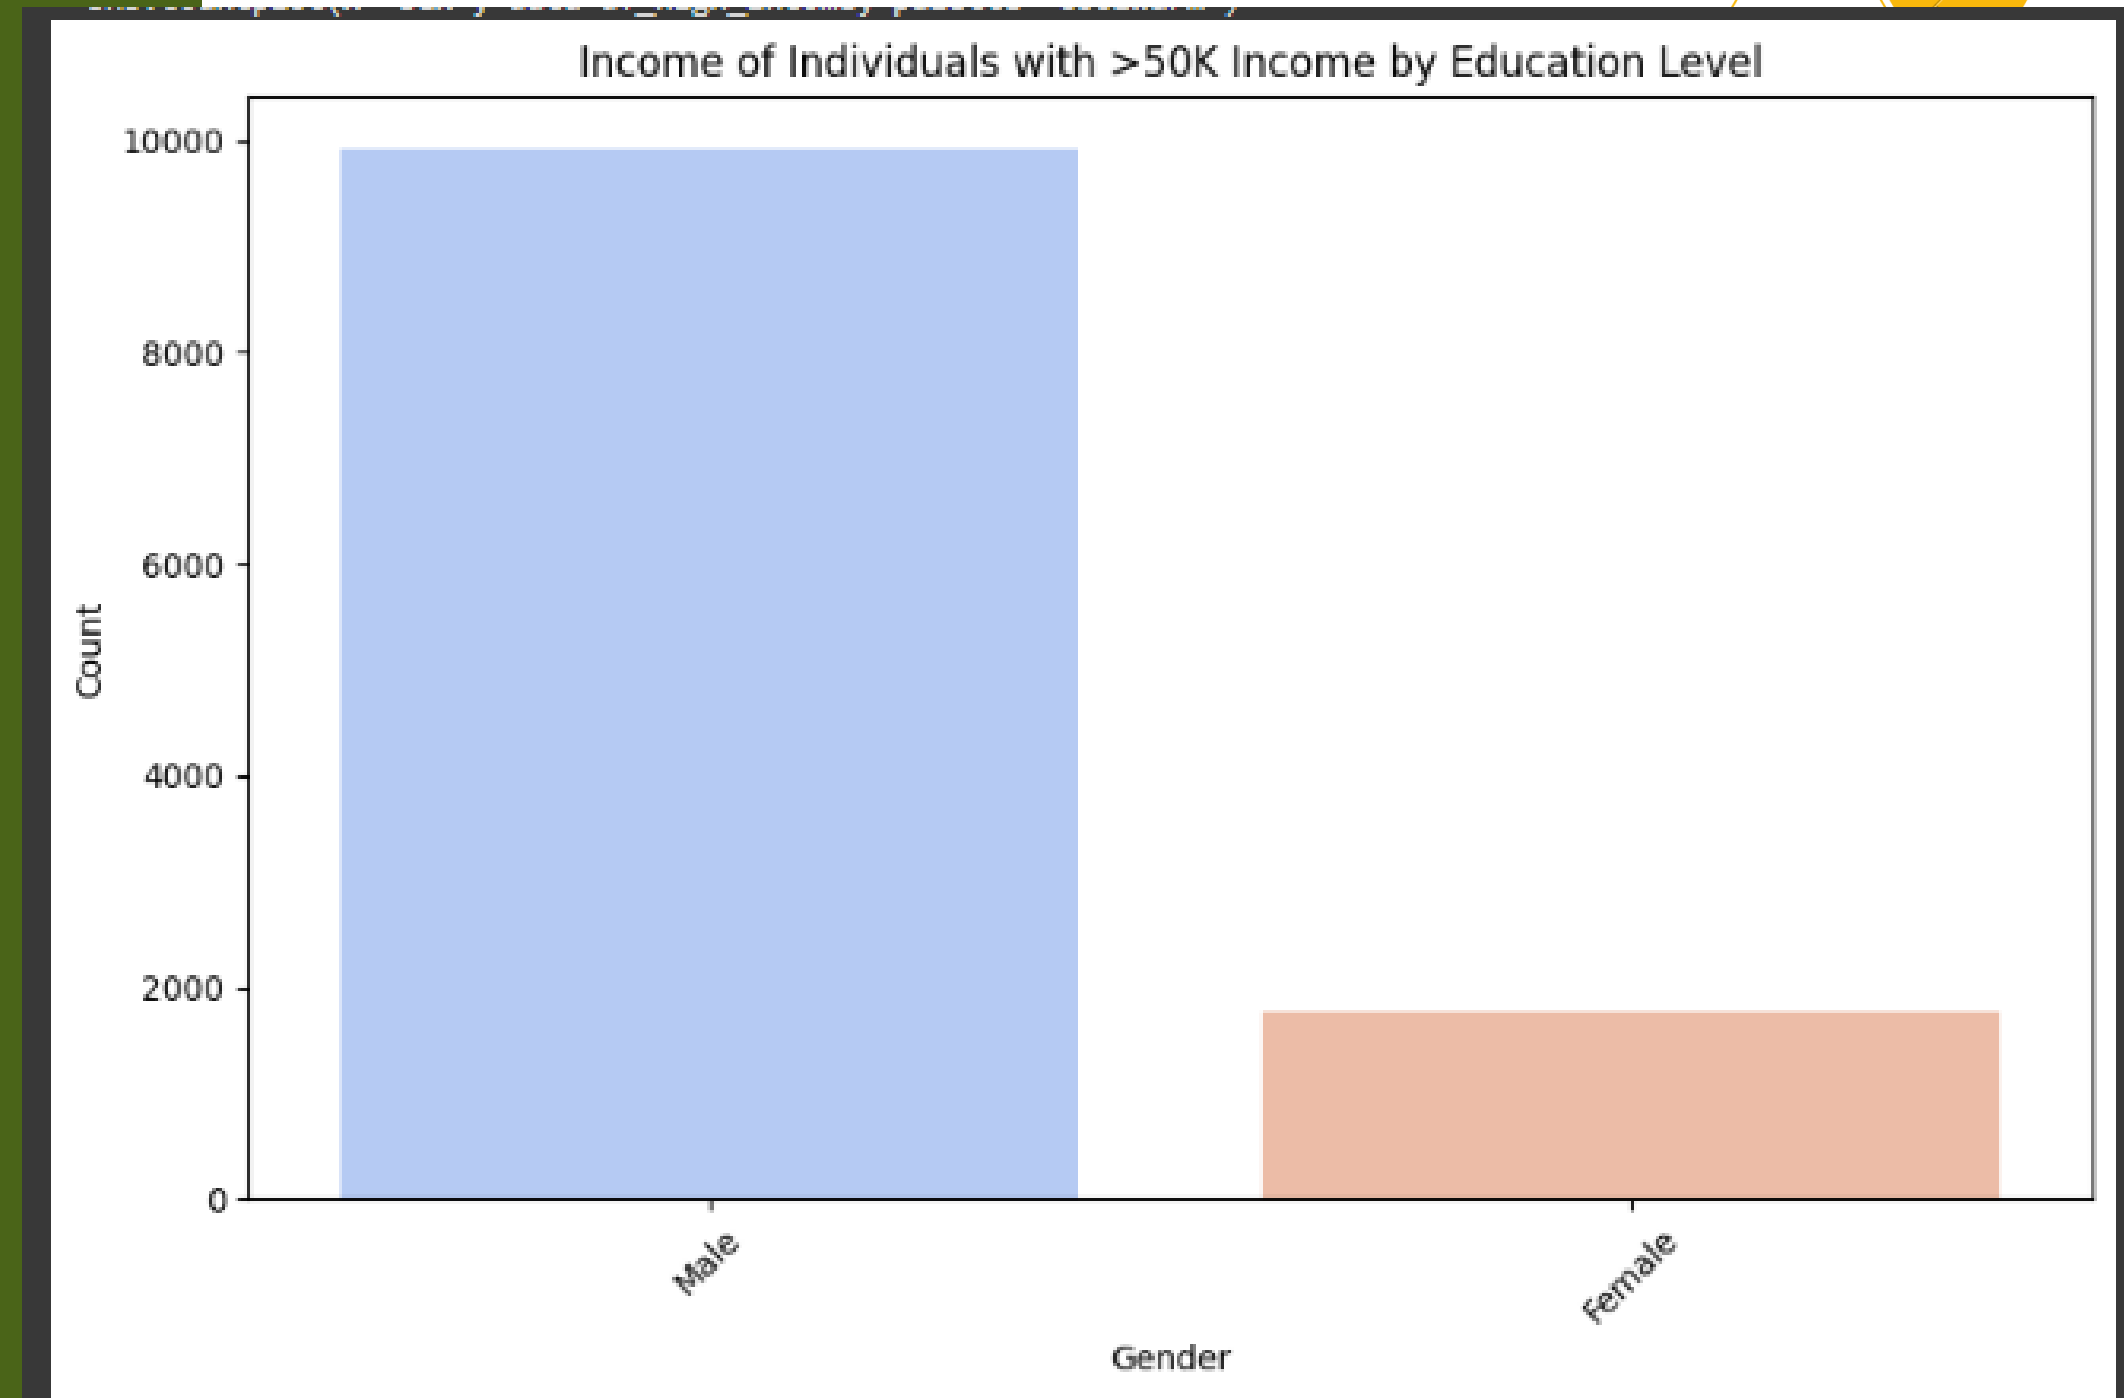

Notably, the Exec-managerial and Prof-specialty fields exhibit a substantial proportion of individuals earning more than \$50K, while other occupations predominantly have lower incomes.

Gender Disparity

there is a significant gender disparity. Most of the male income is greater than 50k compared to female
